DO NOT CIRCULATE

1. In Snina (R49/E96) the Vihorlat (sic) National Corporation is completing a heavy industrial plant.*
2. The production of Tatra trucks and track-laying vehicles has been shifted from the Tatra plant in Koprivnice (P50/046) to Mlada Boleslav (051/002).** Production of Tatra cars will be discontinued.

* Vyhorlat is the name of a range of hills and the area in which these hills are found in Eastern Slovakia just south of Snina. It is believed possible that there is a branch of the CsSZ (Czechoslovak Building Association) known as Vyhorlat. No other firm of that name can be found in any reference material available to this office. Earlier reports have indicated the construction of a heavy industrial plant in Snina, rumored to be a part of the Zbrojovka Brno complex. 25X1
